Augmentative and Alternative Communication (AAC) Workshop at Vanderbilt University

COURTESY OF DYNAVOX

Teachers, speech-language pathologists, and other clinicians who work with children who use AAC face a wide variety of diagnoses, settings, and needs. This workshop will provide a useful toolkit of information for working with children who use AAC, including assessment, goal setting, and group therapy. A special session on AAC and autism will be included. Speakers are all senior speech-language pathologists at Vanderbilt University Medical Center

The workshop fee includes lunch/breaks and instructional resources. This course is offered for a maximum of 0.6 ASHA CEU's (intermediate level; professional area).

For more information and to register:

Register at <http://vkc.mc.vanderbilt.edu/events/5830> or call (615) 322-8240. Space is limited.

Register by Friday, February 24, 2017.

FRIDAY, MARCH 3, 2017
