Augmentative and Alternative Communication (AAC) Workshop at Vanderbilt University

**FRIDAY, MARCH 2, 2018**

**AAC For All: Working with Specific Populations**

**Lisa Wallace, M.S., CCC-SLP**  
Coaching Parents of Young Children with Autism to Use Visual Supports at Home

**Vicki Wolczyk, M.A., CCC-SLP**  
How Do You Work With a Student Who is Blind or Has a Visual Impairment?: Making Language Tangible

**Monique Bird, M.A., CCC-SLP**  
Using Tangible Core Symbols: Word Walls and Communication

**Deedra Finch, M.Ed., CTVI**  
Using Tangible Core Symbols for Story Kits

Teachers, speech-language pathologists, and other clinicians who work with children who use AAC face a wide variety of diagnoses, settings, and needs. This workshop will provide intervention and teaching strategies for the effective use of AAC for children with visual disabilities, multiple disabilities, and autism.

8:00 a.m.-4:00 p.m. (Registration at 7:30 a.m.)  
Rm. 235/237 (2nd Floor), Commons Center

- $175 for professionals
- $125 per person for two or more professionals registering from the same institution
- $50 for students and parents

The workshop fee includes lunch/breaks and instructional resources. This course is offered for a maximum of 0.6 ASHA CEU’s (intermediate level; professional area).
