Help us learn about how babies react to soft touches while watching videos of people talking. Your baby will wear a small wristband to measure his or her heart rate. We will also use a machine to gently stroke your baby’s arm with a brush.

Who can take part?
• Children 3-24 months old

How long will it take?
• One visit to Vanderbilt
• Up to one hour of time

Participants will receive a $25 gift card for the visit.
