

HOW DO KIDS GROW?

DO YOU HAVE A CHILD WITH DOWN SYNDROME?

Infant Learning Lab

The Infant Learning Lab at Vanderbilt University is conducting studies to understand the cognitive and motor development of infants and children with **Down syndrome between 4 months and 15 years**. Our assessments involve fun games with toys that kids usually love! Contact us for more details!

VANDERBILT UNIVERSITY

HOW LONG?

You will participate in 1 to 4 visits, each lasting 30-60 minutes.

COMPENSATION:

All families will receive \$25 to \$50 and small toys after the study.
