Understanding better how children learn math

Who is eligible?
Children in Kindergarten this year

What is involved?
• 2 visits per year for 3 years, at family’s convenience (including evenings or weekends)
• Visit 1 is 2-3 hours
  Visit 2 is 2 hours

What will we ask you to do?
• Visit 1: Children practice lying still in pretend MRI scanner while doing tasks on computer and do school-like activities. Parents answer questions about their child.
• Visit 2: Children lie still in real MRI while doing computer tasks with numbers and objects.

Compensation?
Monetary compensation will be given to parent and child plus a toy at each visit, and a bonus for completing the MRI scan--$100 total for completing both sessions
